SUMMARY

Full Stack Developer with a Bachelor of Science in Computer Science and 10+ years of experience building web applications, internal tools, and AI-powered solutions. Proven track record leading engineering teams and delivering scalable products across BPO, tech, and SaaS industries. Experienced in CRM platforms including WordPress, GoHighLevel, and ZOHO. Currently freelancing and open to full-time opportunities.

WORK EXPERIENCE

Software Engineer & Team Lead
2019 – 2025

XtendOps Philippines Inc.

Led a team of developers building internal tools and portals — timekeeping systems, talent acquisition platforms, APIs, and monorepo architecture using AdonisJS, React, SvelteKit, and TypeScript. Also developed AI agents and AI-powered tools for clients, automating workflows and enhancing operational efficiency.

Zoho CRM Implementation · Project Based
February 2026

NE Solutions

Implemented and configured Zoho CRM tailored to the client's business workflows, including automation, pipelines, and integrations.

Software Engineer · Project Based
February 2026

Real Virtual Elite · Tee Time Golf Tours

Developed and deployed the Tee Time Golf Tours website, handling full project setup including domain management, server configuration, and WordPress implementation.

Reporting Analyst
2018 – 2019

Proof Inc.

Handled payroll processing, campaign reports, and analytics — delivering accurate data and insights to support operational and business decisions.

QA Specialist
2016 – 2018

Voiceless Technologies

Conducted quality assurance evaluations, identifying issues and providing coaching to agents to ensure quality standards were consistently met.

Transfer Validation Specialist
2015 – 2016

Avatar Technologies

Validated customer transfers to ensure customers were legitimate and met the required standards before processing.

Customer Service Representative
2014 – 2015

Transcom Philippines · BestBuy Account

Provided customer support for BestBuy clients, handling inquiries, troubleshooting, and order management.
